

Weekly Progress Report: Sept 25-29

Group Member: Mingyi Gong, Danling Zhou, Yiqi Zhu

Progress/Accomplishments:

- Decided the dataset
- Asked instructor for project proposal template/format
- Made significant progress on writing project proposal, with 50% of the work completed.
- Met with Team Members to discuss the main focus of our project.
- Resolved dataset usefulness that was hindering progress on writing proposal and future EDA.
- Consulted instructor to discuss the usefulness of our chosen dataset.

Problems/Challenges:

- Uncertain about the data quality of dataset

Plan/Next Steps:

- Check the data quality of the dataset selected
- Complete project proposal by 10/4 (Wednesday)
- Begin work on EDA in order to stay on schedule.
- Obtain necessary resources to complete topic selection.
- Address dataset cleaning in order to prevent further delays.

Overall, the team has made good progress this week despite encountering some challenges. We will continue to work hard to stay on schedule and ensure the successful completion of the project.
